

## Forget me not\_Zebra

come on and tell me what you got  
I'll tell you what I need  
come on and tell me what you want  
and Ill tell you how to proceed

(no) introductionary scenes  
we ain't ordinary teens  
straight out of middle  
into superficial dreams

out in wonderland  
a language we don't understand  
better keep it simple  
and communicate with hands

rebel, tribal culture  
I like it a lot  
so if you ever turn my way  
oh please forget me not

take a break and wake up  
I got lots to give  
All I say is made up  
thats just how i live

but in the other hand  
the flowers that I brought  
flowers on demand  
saying please forget me not

dont stop me cause I'm love with you  
dont stop me I'm in love with you
